MANCREW Group is an engineering, manufacturing and contracting group working mainly in the design, fabrication and construction - turn key projects - of Pre-Engineered steel Buildings (PEB).

Steel Structures are essential when building industrial plants, workshops , warehouses , crane & gantry girders , cold stores, supermarkets multistory steel buildings, trading centers, sport centers, cinemas, offices, control rooms , car parking sheds, and show rooms.

MANCREW Group was established in 1981 as a Contracting & Project management company“MANCREW Projects ”. This company rapidly proved its elf as a professional steel structure contracting company. This promoted the establishment of “MANCREW Industries ” as a pre- engineered steel buildings designer and manufacturer company.

Since then, MANCREW has acquired a reputation that enabled it to completely dominate the steel structure market in Alexandria - Egypt, to have a substantial share of steel structure market in Egypt and to export pre- engineered buildings abroad, to countries like Sudan, Somalia, Algeria, Qatar, Lebanon, and several others.

Since 2001, MANCREW export sales exceeded the local market sales. MANCREW has constructed projects in Sudan, Somalia, Qatar, Lebanon, Algeria, and several other countries. During the period from 2001 till 2008, more than 80% of the production was for export.

MANCREW has always been striving to excel in quality, safety and Environmental performance and attain sustainable development, with due care for future generations, bringing further benefits to people, environment and community.

In its journey towards excellence, MANCREW has acquired ISO 9001 certification for quality management system, ISO 14001 certification for environment management system, and OHSAS 18001 certification for occupational health and safety management system thus becoming one of the few companies in its field to obtain certifications for the three management systems.

With a background of about THIRTY years of constantly updating professional experience, MANCREW offers an entire range of high quality services from feasibility studies, design of custom tailored pre- engineered buildings, procurement, fabrication, steel erection, civil construction, project management up to complete “Turn- Key” projects.

Why Build with Steel? ... Why Mancrew?

The most remarkable advantages of pre-engineered buildings are low initial investment, fast construction, large clear spans, versatility of unlimited choice of layouts, ease of future expansion, unique attractive appearance and inherent resistance to earthquakes.

The most remarkable advantage of MANCREW is that it offers a client oriented full package that integrates all above-mentioned advantages together with its own capabilities to achieve an optimal cost-effective complete “Turn-Key” solution, particularly tailored to match the customer’s needs.

Tiles Factory - International Ceramics Company
Borg El Arab - 2010

MANCREW is one of the few companies that Designs, Fabricates, Erects and Constructs with its own staff saving time and money and assuring the quality of work.

“NO SUBCONTRACTORS - NO CERTIFIED BUILDERES”

MANCREW substantial resources, years of constantly updating professional experience and wide range capabilities provide the most productive, reliable, durable, cost-effective and elegant solutions for steel construction.

With all the success achieved until this day, MANCREW stands tall and proud of its capabilities, capacities, efficiencies, approval of all consultants and; above all, the accreditation of excellent service records proven through the satisfaction of our valued customers, who have patronized with MANCREW and with whom excellent business relationships have been developed.

2

General Information

- MANCREW is organized in two main divisions and three supporting departments .
- The main divisions are: Steel Structure Manufacturing companies and Contracting companies.
- The supporting departments are: The Engineering Office, Quality Management department and Financing and Administration department. Each division is headed by a manager reporting directly to the chairman and managing director of MANCREW.
- The steel structure manufacturing division accounts for about 67% of MANCREW annual turnover, while the contracting division accounts for 33%.
- MANCREW, with its willingness coupled with the interdisciplinary responsibilities entrusted to its specific teams, has become an integrated and flexible organization capable of offering more value than its competitors.

5 Mancrew premises

5 1 Factory

MAN CREW Factory is a 38 000 sqm facility located in New Borg El-Arab industrial zone, besides about the same area reserved for future expansion.

The factory’s equipment mainly consist of Automatic / Semiautomatic cutting, bending , drilling and welding machinery. Such machines are in a very good shape as 20% of equipment are 4-10 years old, 60% are 2-3 years old and remaining machines have been completely renewed or purchased within the last couple of years.

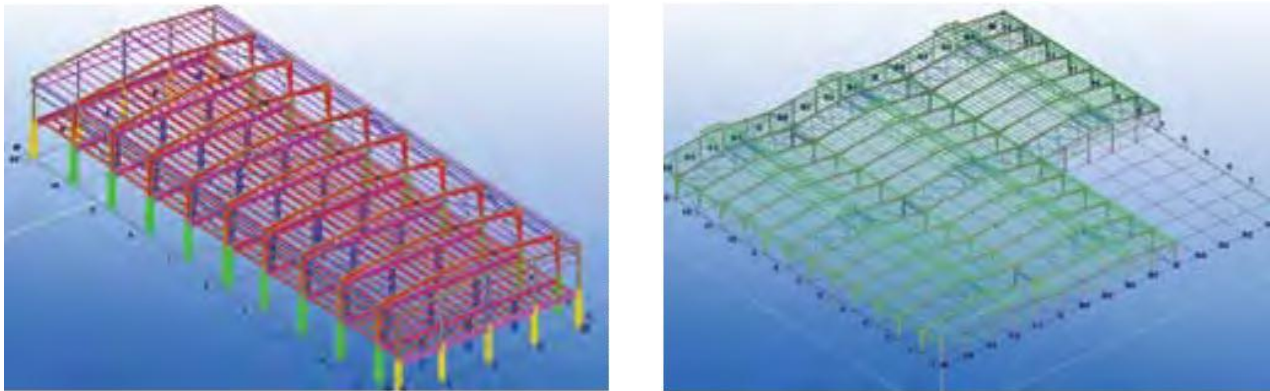

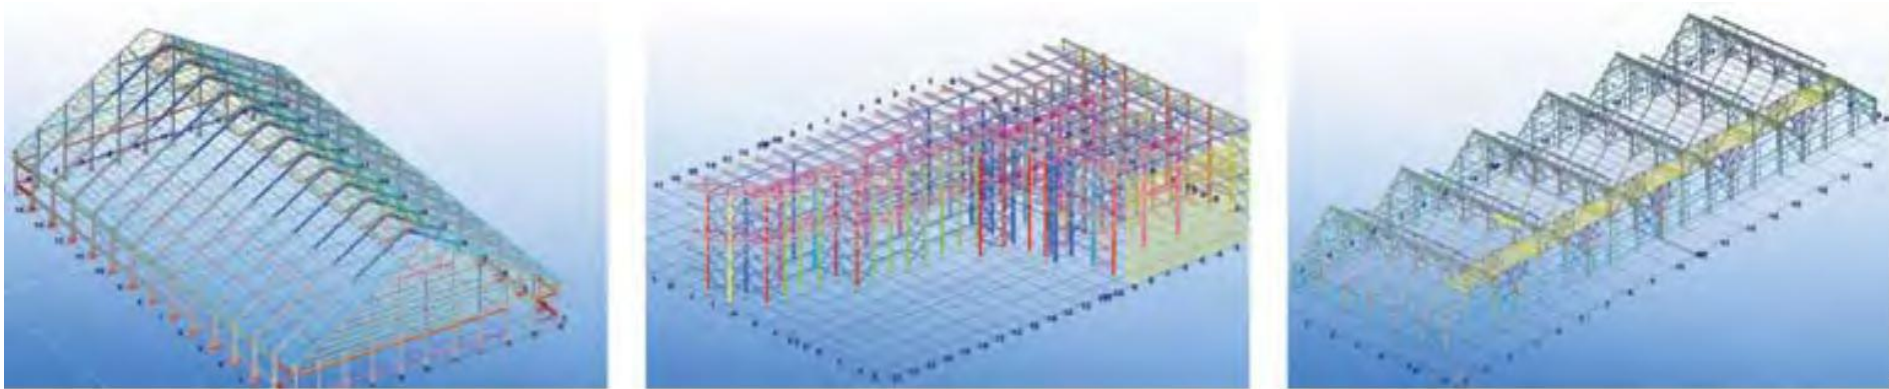

CNC Cutting tables, CNC Plate Drilling Machine s and Full Automatic Beam Welding Lines are used to achieve the desired accuracy. In addition to that, CNC Beam Cutting and Drilling lines, CNC Angle Cutting, Punching and Marking Lines are used with hot rolled sections.

The factory keeps an adequate track record of maintenance resulting in increasing equipment availability. Workshops are equipped with overhead cranes of appropriate capacity.

5 1 Engineering Office

MANCREW Engineering Office is located at the head office, at Mostafa Kamel - Alexandria. It is equipped with up-to-date facilities: Up to date computers, flat bed scanners, laser and inkjet printers, color and monochrome plotters (size Ao), CAD software, Tekla detailing software and other off-shelf tools and in-house developed programs , in additions to other drafting s oftware.

5 3 Cairo Branch

Cairo branch office is located at Heliopolis district, near Sheraton Heliopolis Hotel, 5 minutes from Cairo International Airport and close to traffic networks leading to new growing industrial cities.

Production Capacity

7 Production Capacity

- Annual Supply Capacity:
 - Steel Structure B.U.S. : 9600 Ton
 - Steel Structure Standard Sections : 12000 Ton
 - Steel Structure Trusses : 5000 Ton
- Annual Erection Capacity:
 - Steel Structure : 15000
 - Wall & Roof Cladding and Sandwich Panels : 6000000 m2

Bulk Stores - Cairo Feed Company
Nubaria - EGYPT - 2010

8 Quality System

8 Quality System

“Quality at Reasonable Price” is the primary concern of MANCREW, from preliminary feasibility studies to customer service and follow-up. For this reason MANCREW is committed to a Total Quality Management Program.

MANCREW quality assurance system is a flexible system based on the requirements of UNI ISO 9001 standards. It has been properly revised to comply with the quality assurance requirements of different cus tomers . The extent to which the s tandard operational procedures are applied to a particular project is controlled by the Quality Plan specifically prepared for same project. Independent inspection bodies “Third Parties” are involved when required. The quality assurance and control system covers the entire project range: design, production, construction and customer service.

MANCREW, as an ISO 9001 accredited company, is committed to proactively seeking the views of customers and evaluating their level of satisfaction.

Sample of projects and main clients

MANCREW is approved as a supplier and contractor in most of the major companies, for example:
Lecico, Al Ezz Steel Rebars , Binladen Int., Daewoo Egypt, Renaissance Egypt Company For Cinemas (Orascom Group) , Zahran Industries ,
El-Hammam Cement Industries S.A.E, El-Nassr Fertilizers & Chemical Industries S.A.E, Petrofac International LTD, Petrojet, Sumed,
El Habtour,Al Jaber – Qater, Petrodar, GNPOC, Heleig Peroleum Services – Sudan, White Nile Petoleum Services and many other valued customers .

Conventional Projects: More than 10 millions Square meters of Low Rising Steel Structure Buildings .

Non-Conventional Projects:

• **Difra FPF project:** A camp made for a petroleum company at Difra- Sudan. The project consisted of office building, clinic, accommodation buildings and othe r, total of 34 buildings, fabricated in 2 months, shipped to Sudan and was successfully erected in four months.

The work scope was a complete Supply and Erection of the s ubs tructure including finishing (Skeleton, Sheeting- Covering, Partitioning, Flooring, Windows, Doors , Electrical, Plumbing, HVAC , Carpentry)
Owner: THE GREATER NILE PETROLEUM OPERATING COMPA NY LTD.
Consultant: OGP TECHNICA L SERVICES SDN BHD
This project was done as a subcontract from the JV Higleig - Petrofac international limited.

• **Palouge Airport:** An airport made for a petroleum company at Palouge – Sudan. The project consisted of terminal building , control tower , substation , guard house, fuel station , fabricated in 2 months, shipped to Sudan and erected in 2 months

The work scope was a complete supply and erection of substructure including finishing (Skelton, Sheeting – covering – Partitioning, Flooring , Windows, Doors , Curtin walls , Electrical, Plumbing .

Owner: Petrodar.

Consultant: OGP TECHNICA L SERVICES SDN BHD

This project was done as a subcontract from the JV Hagleig.

• **Melute FPF:** A camp made for a petroleum company at Adar - Sudan. The project consisted of control room , switch gear buildings, Substation building, Workshop, Guard house, fabricated in 2 months, shipped to Sudan and was successfully erected in two months.

The work scope was a complete Supply and Erection of the substructure including finishing (Skeleton, Sheeting- Covering, Partitioning, Flooring, Windows, Doors, Electrical, Plumbing, HVAC)

Owner: PETRODAR OP ERATING COMPA NY .

This project was done as a subcontract from the JV Hagleig

• **Thar Jath Accommodation Complex:** A camp made for a petroleum company in South Sudan. The project consisted of office building, clinic, accommodation buildings and other, total of 34 buildings, fabricated in 3 months, shipped to Sudan and erected in four months.

The work scope was a complete Supply and Erection of the substructure including finishing (Skeleton, Sheeting- Covering, Partitioning, Flooring, Windows, Doors , Electrical, Plumbing, HVAC , Carpentry)

Owner: THE WHITE NILE PETROLEUM OPERATING COMPA NY LTD.

Consultant: OGP TECHNICA L SERVICES SDN BHD

This project was done as a subcontract from the JV Hagleig

• **Neem Base Camp:** A camp made for a petroleum company at Difra- Sudan. The project consisted of office building, clinic, accommodation buildings and other, total of 22 buildings, fabricated in 2 months, shipped to Sudan and erected in three months.

The work scope was a complete Supply and Erection of the substructure including finishing (Skeleton, Sheeting- Covering, Partitioning, Flooring, Windows, Doors , Electrical, Plumbing, HVAC , Carpentry)

Owner: THE GREATER NILE PETROLEUM OPERATING COMPA NY LTD.

Consultant: OGP TECHNICA L SERVICES SDN BHD

This project was done as a subcontract from the JV Hagleig

• **El-Hammam Cement Plant:** 6000 Ton of unique steel structure design, rising more than 90 m and requiring high erection technique. Project was supplied and built in a time record of 18 months .

• **Lecico Egypt (Khorshid):** 350 000 m2 . Project was supplied and built in 13 months

• **Daewoo motors Egypt:** Multistory car production plant 10 000 m2

• **Lecico Egypt (Ceramics):** Turn-key project (200 000 m2) including factory building 100 000 m2 , guard rooms, fence, car parking, roads, loading & unloading area, tanks and utilities . Project was supplied and built in 12 months

- **RUBEX Industries:** Turn- key project (20 000 m²) accomplished in 8 months.
- **El-Nassr Fertilizers & Chemical Plant (Talkha):** 1200 Ton of special construction steel building with 45 m free span , very steep slopes and particular high chemical resistance paintings.
- **Dreamland Megamarket – Steel Structure (6th October City):** 400 Ton of unique shape steel building intended for use as a multistory and trading center.
- **Mina Garden City Sport Center (6th October City):** 2100 m² of space truss steel building.
- **Al Ezz Rebars Co. (Sadat City):** 500 Tons of special structure steel building and 14100 m² of steel cladding.
- **Sonak Co. (Damanhour):** “Turn-Key” project of a cold store building [100 Tons of steel, 2000 m² of steel cladding and 4600 m² of polyurethane sandwich panel plus utility bldg.].
- **Eng. George Ghorayeb:** 14 000 m² Exported to and erected in Beirut- Lebanon, Manufactured and Erected in seven weeks

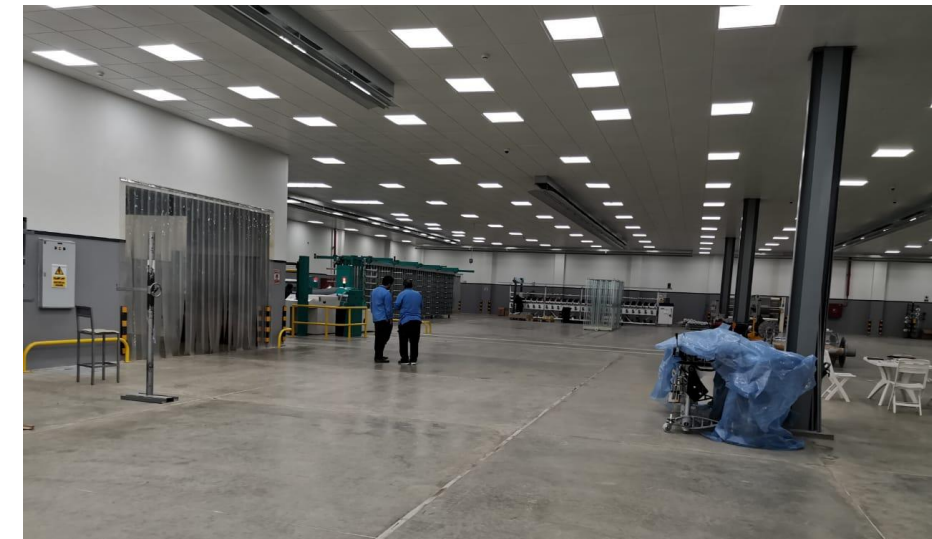

Doha City Centre Roof and Helipad
Doha, Qatar - 2007

Lomtex For Textile Industries:

Location: 6 october

• **Two Investment Areas:** The Project Include 2 Gas stations (FUEL UP) , 8 Drive Thru , 4 Restaurants , 3 Markets & 2 Car Care buildings.

Location: Mehwar Al-Tameir (Abo Zekry) , Alexandria

Owner: Armed Forces Engineering Authority

Consultant: Effect Engineering Consultancy

Duration: 8 months

• **Restaurant Bridge Over Mehwar Al-Tameir:** 3000 Ton that consist of a bridge with 36m free span and two multistory towers rising more than 35m .

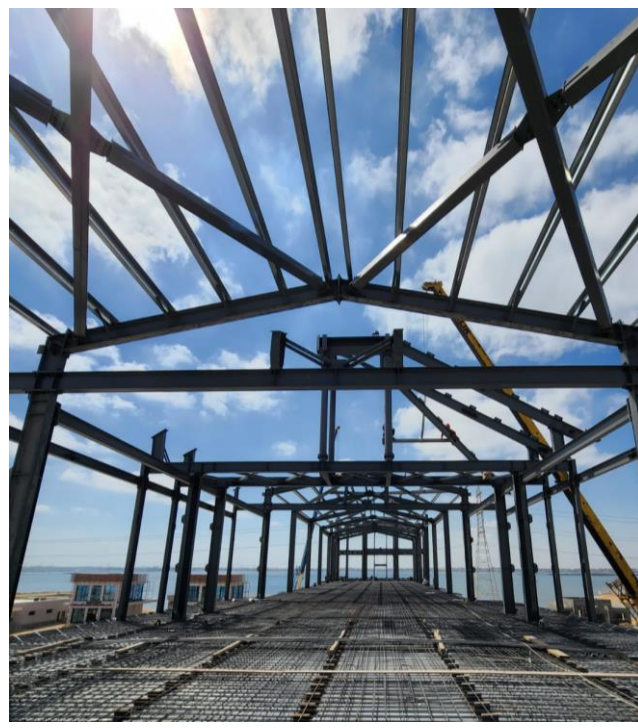

Location : Mehwar Al-Tameir (Abo Zekry) , Alexandria

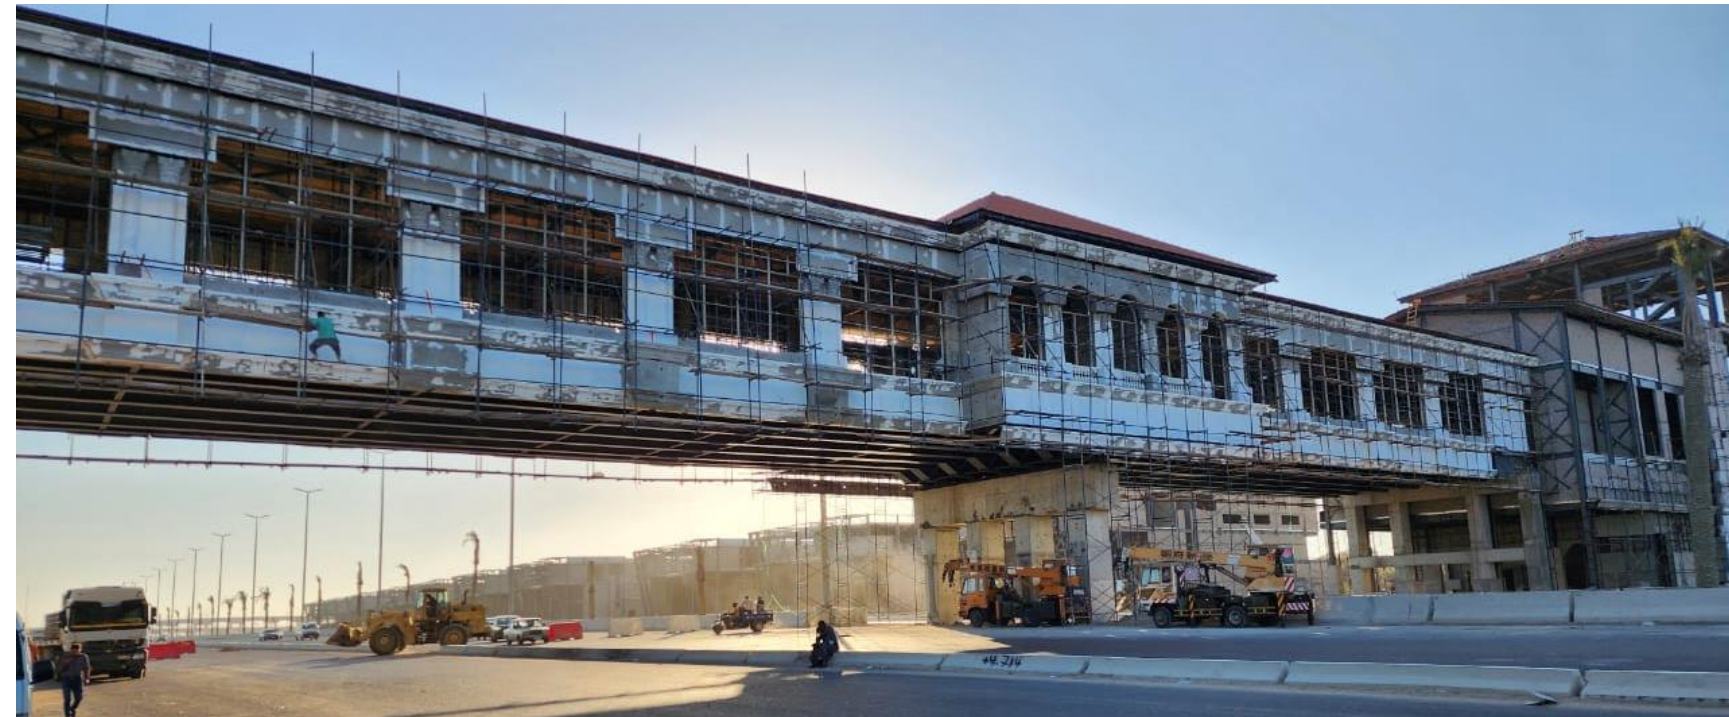

Owner: Armed Forces Engineering Authority

Consultant: Effect Engineering Consultancy

Duration: 10 months

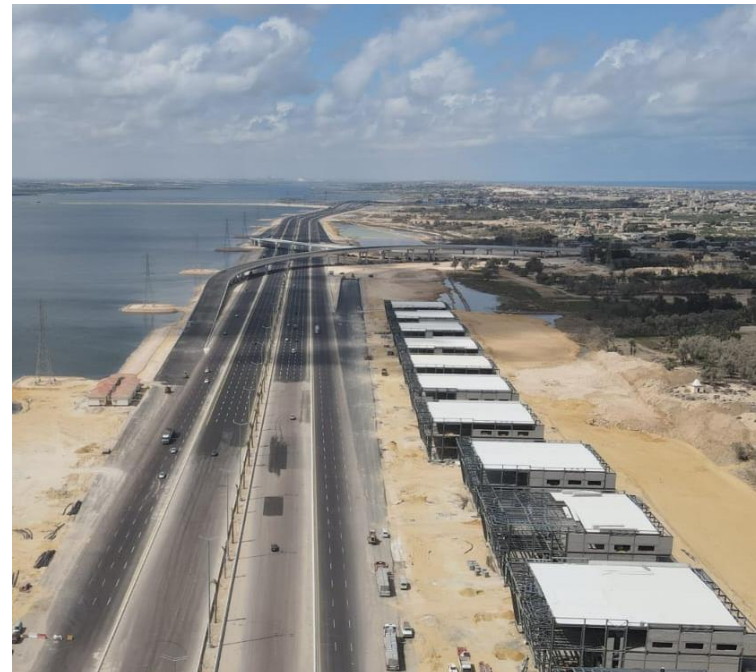

• **Ten Car Showrooms:** 4000 Ton of multistory Steel Structure design

Location : Mehwar Al-Tameir (Abo Zekry) , Alexandria

Owner : Armed Forces Engineering Authority

Consultant : AGAP Consultant Office

Duration: 6 months

• **Al-Montaza Parking Garage:** 3500 Ton Multistory Steel Structure consist of 4 Buildings that can carry up to 2250 Cars

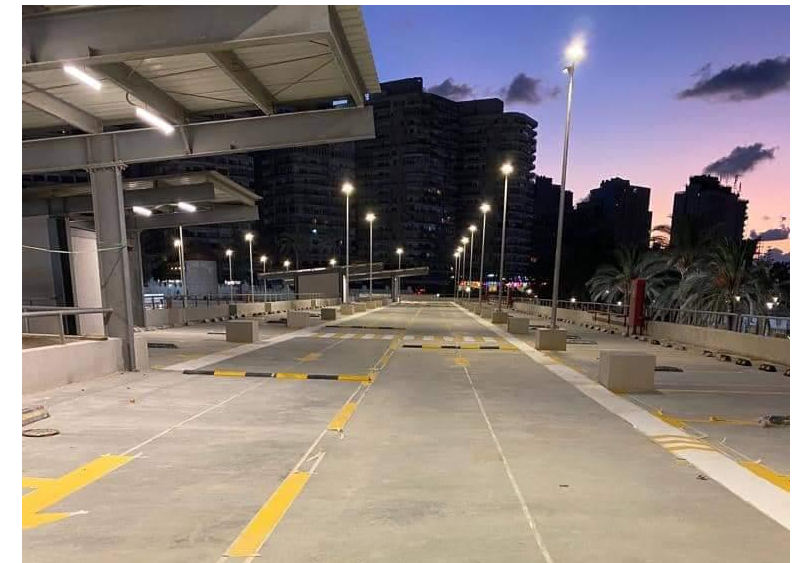

• **Al-Montaza Welcome Building & 4 Hotel Reception Buildings Garage:**

Location: Alexandria

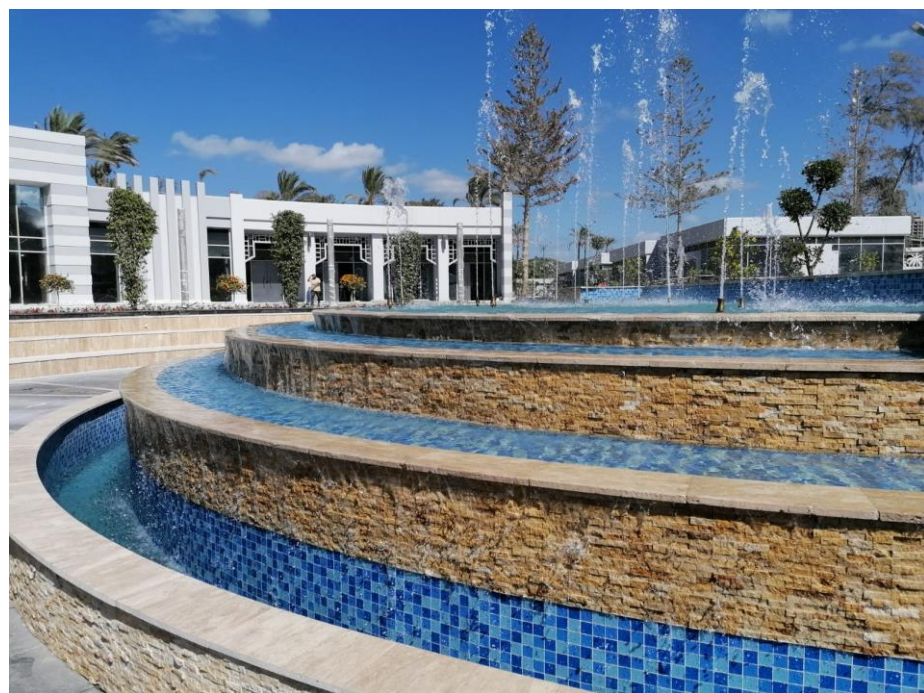

Owner: Armed Forces Engineering Authority

Consultant: AGAP Consultant Office

Duration: 9 months

• **Al-Montaza Green Market:** Consist of two buildings that lies between historic Araucaria Trees in Al- Montaza gardens

Location: Alexandria

Owner: Armed Forces Engineering Authority

Consultant: AGAP Consultant Office

Duration: 4 months

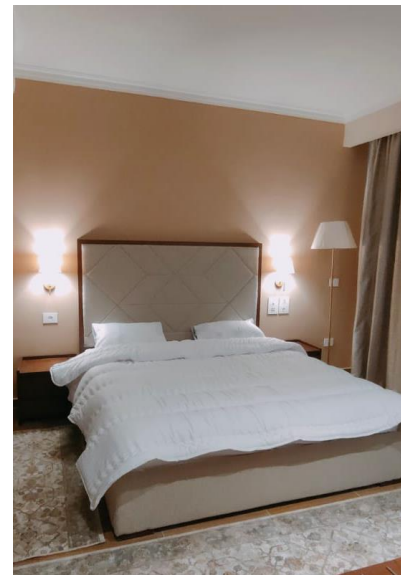

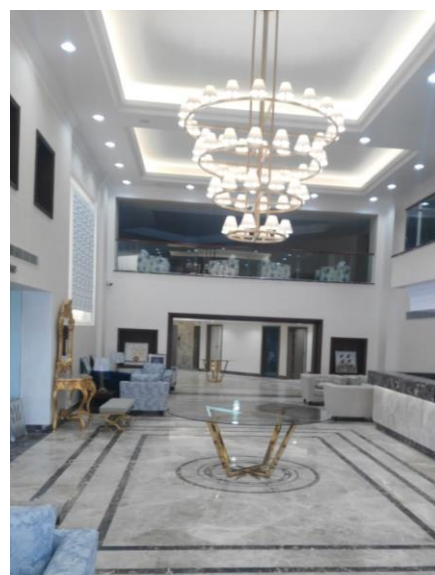

• **Soliman Ezzat Hotel :**

Location : Ras El-Tin , Alexandria

Owner : Naval forces

Consultant : Ereibi Designs

Duration: 6 months

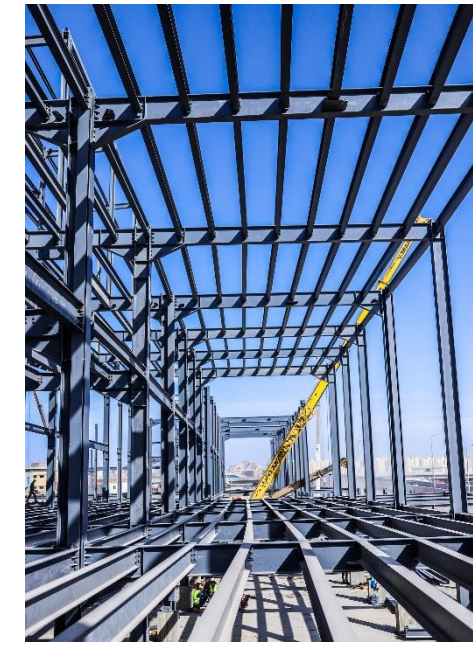

• **New Downtown:**

Location: Alexandria

Owner: Armed Forces Engineering Authority

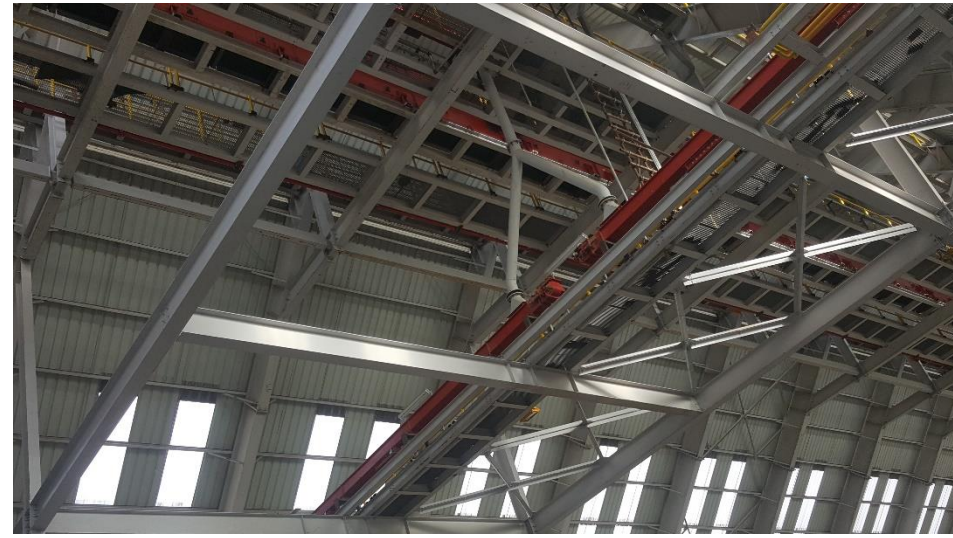

Duration: 18 months

• **Al-Bozour Store:**

Location: Alexandria

Duration: 12 months

• **Abo Keer Stores :** 1200 Ton for a total of three buildings with a free span upto 65m

Location: Abo Keer Port , Alexandria

Owner: Naval Forces

Duration: 9 months

• **MARCOGYPT:**

Location: Alexandria

Owner: Alexandria intermediate industries

Duration: 12 months

• **Small-Industries Complex:**

Location: Alexandria

Owner: Armed Forces Engineering Authority

Duration: 9 months

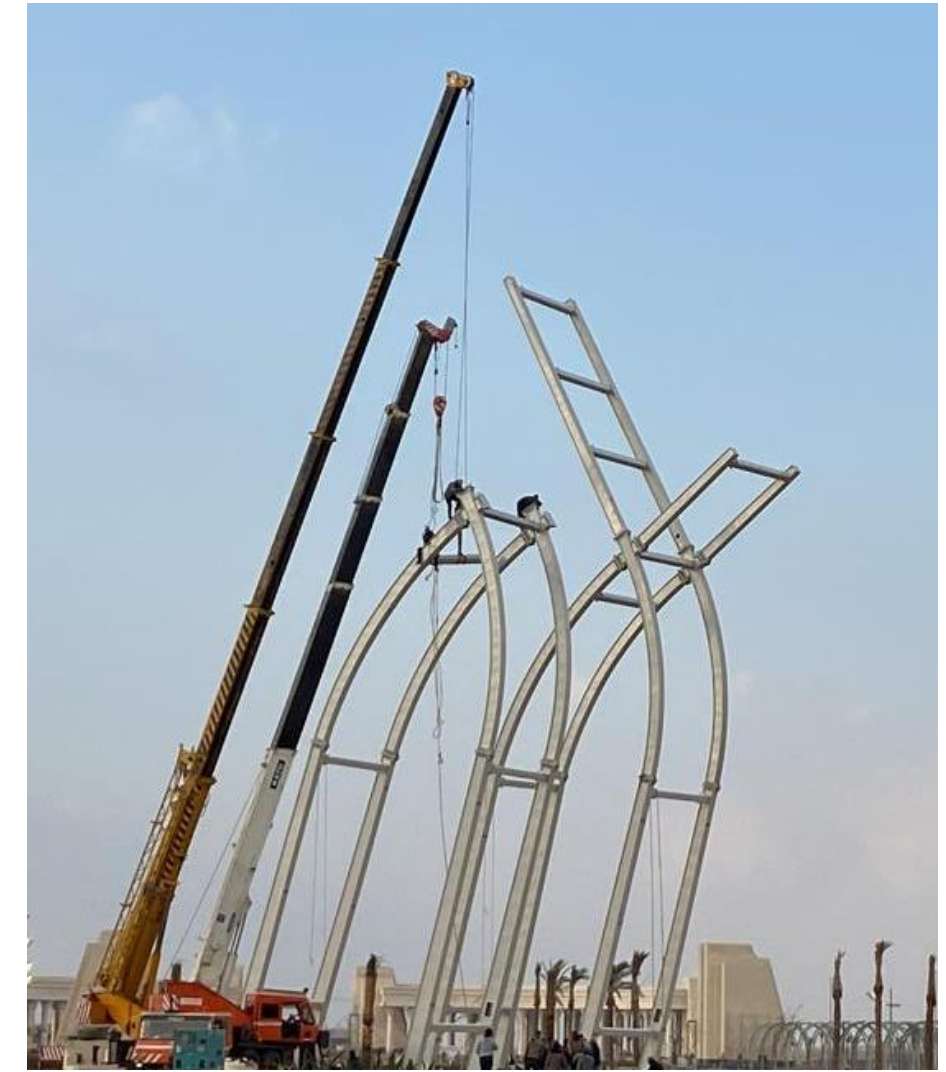

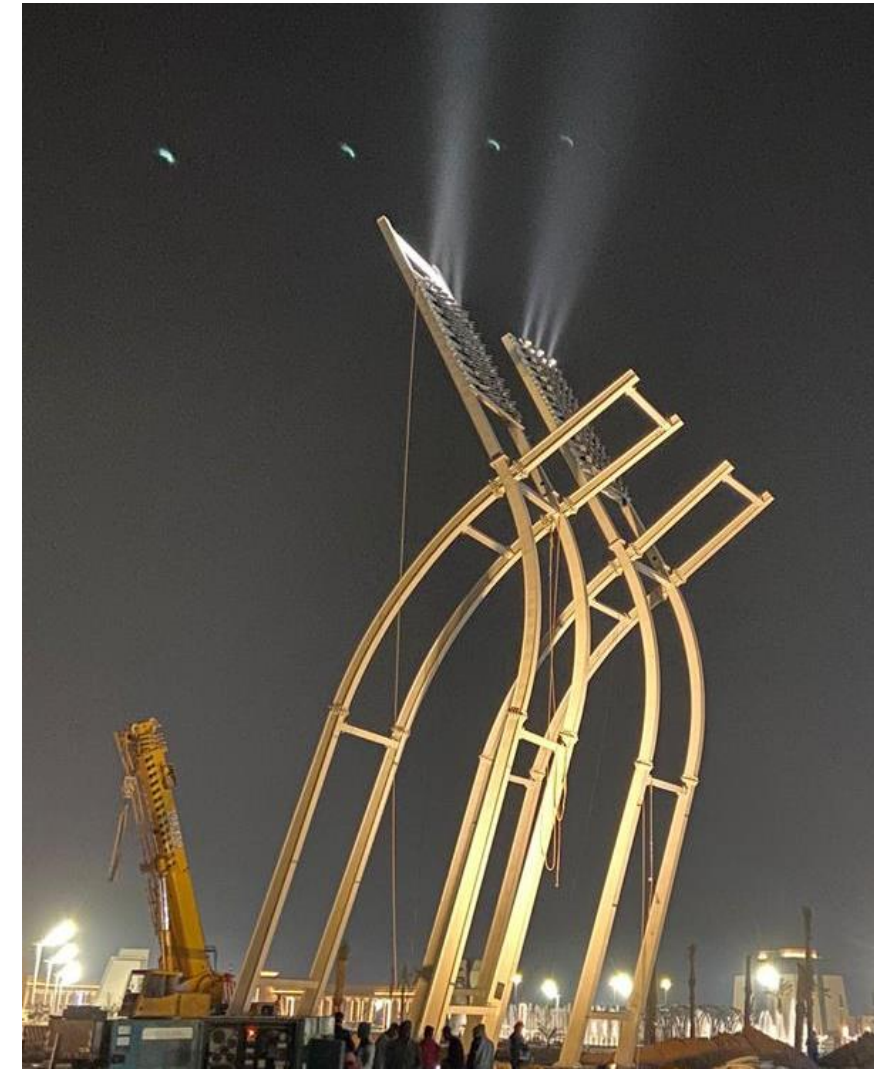

• **Special Lighting Poles :**

Location: New Capital

Owner: Armed Forces Engineering Authority

Duration: 3 months

• **Hilana Bridge:** The work scope was complete supply and erection of the bridge steel structure including decking . The project was done as a subcontract from Samcrete Engineers & contractors .

Location: Al-Gharbia

Owner: Armed Forces Engineering Authority

Duration: 3 months

• **Shooting Club:** The work scope was complete supply and erection of the roofing structure . The project was done as a subcontract from Alshams for contracting

Location: 6 october

Owner: Shooting Club

Duration: 4 months
